

Hello Fusion Bars from 2022,

as always we from the beverage logistics, the so-called "haupttressen" or HPTTRSN will report to you again this year in advance.

As always, you will receive drinks, cups and either a refrigerated container or other pre-cooling capacities from us.

First of all, some information.

Please read them carefully and please share the information with your bar manager then it will be less stressful for everyone.

First of all, our questions to you, so that they do not perish! We need feedback from you with the following information:

Name/mobile phone number during set-up and dismantling:

From what date since you set up on the square?:

On which day and at what time do you open the bar?:

On which day and at what time do you close the bar?:

How many 0.2 deposit cups do you need as initial equipment?:

How many 0.3 deposit cups do you need as initial equipment?:

For counters without refrigerated containers: How many refrigerators do you need?:

A big request in advance:

In some places was and is still being built properly: Please make sure that from 23.6. we can get to your refrigerated containers and your warehouses well with the large trucks and do not install the access roads with installations or the like! Please also remember that the access roads must remain free even in height and no pipes or the like are pulled there. For.B, we will have to start from scratch at Cloud Chukoo/Cabaret in the future, as the old access road is built due to the new Turmbühne.

For cooling:

Many counters now have a refrigerated container. If you do not have a refrigerated container/refrigerated trailer, we will provide you with a few refrigerators. They are always scarce, so get some yourself if possible. If in the end refrigerators remain from the counters without refrigerated containers, we will see who can get another one. Please do not switch on the refrigerated containers yourself! We do this together with you at the handover and make sure that they are set to the right temperature.

Crew Drinks

As in 2019, we will not be able to distribute crew drinks to you in 2022. This is done by the beverage combine of the Kulturkosmos.

Deliveries:

First delivery:

We start with the first delivery one week before the beginning of the festival. This takes about 4-5 days. This means for you, from Thursday, the 23.6. you have to have taken care of the fencing of your containers / storage areas e.B. with construction fence elements at the latest. The containers and the storage areas must then be empty and the access routes free!

For the first delivery, we supply a colorful mixture, based on the consumption of the last merger. We not only fill the refrigerated and sea containers to the brim, but will also have to put you next to the containers as much as possible, depending on the storage capacity. This is not an evil intention, but otherwise not affordable. Also because during the festival everything not only goes slower, but then also empties have to be moved by us. How many pallets you get as a first delivery can be found in this overview. The refrigerated containers can each hold 10 pallets, the rest must then be outside:

| Bar | Delvry 1 | Bar | Delvry 1 | Bar | Delvry 1 |
|-------------|----------|--------------|----------|--------------|----------|
| | | | | | |
| Tanzwies1 | 20,0P | Datscha | 12,9P | Palapa | 20,0P |
| Tanzwies2 | 20,0P | Cabaret | 13,5P | Bachstelzen | 62,0P |
| Querfeld | 13,5P | Call Kutter | 18,0P | OASE | 16,8P |
| Trancefloor | 21,0P | Neuland | 11,8P | Rootsbase | 12,0P |
| RoterPlatz | 17,0P | Fer a coudre | 5,0P | Kino | 8,6P |
| Luftschloss | 12,0P | Palast | 16,0P | Casino | 10,5P |
| Seebühne | 21,0P | Räuberhöh | 9,0P | Toto Club | 10,0P |
| Salon de B | 18,5P | Sonnendeck | 25,0P | Extravaganza | 9,8P |
| Tube | 10,5P | Subardo | 10,4P | | |

Feel free to contact us if you see even more storage options with you, or if you need further coordination.

You will receive the drinks for your counter sale from us on commission, i.e. we will take back full goods (only whole boxes). The price list with purchase and sales prices can be found in the appendix. This year, the bottle deposit for visitors has been abolished. However, this does not apply to the purchase of drinks.

Like the bottlers does with us, we charge you the usual deposit on bottles and boxes plus VAT. This also means that you have an interest in ensuring that as many bottles as possible find their way back to our warehouse.

Daily inventories:

As always, we will try to keep an eye on your consumption together with you through regular inventories in order to avoid overorders (as well as underorders).

In order to avoid unnecessary arrival and departure transports, we ask you to plan in such a way that we do not have to pick up the last few orders from Sunday at the end of the festival.

Therefore, as always with every order: Indicate the number of remaining full goods. (As soon as available, the regular inventory logically also applies to empties).

Orders:

We are available during the festival from 06:00 to 24:00.

On site we can be reached with an extra landline number. As soon as we have them, you get them too.

It would be good if you let us know in the morning with as much advance notice as possible when you need new goods (plus inventory list).

We then strive to "process" the orders as quickly as possible. If there are delays due to weather, failed mobile networks or vehicle problems... sorry, but we do what we can! Again: Please make sure that the entrances/accesses to the containers/storage locations are always accessible by truck and are not obstructed by installations.

If you use your own locks at your driveways, it is best to tell us the codes or make sure that people with keys from you are on site at the agreed delivery time.

Locks and keys for the refrigerated containers usually come from us, so we have secure access.

Deliveries in the dark are reduced to a minimum for safety reasons.

Cups

There are 0.2 and 0.3 cups this year. You can borrow them from us. Cups returned by visitors must be rinsed by yourself.

The cup deposit is 0.50 EUR.

Final inventory/ collection/ billing:

Counting and billing is done from Monday (4.7.) noon to Tuesday evening, please have a few watchful people at the start, because suddenly there is a very concrete talk about numbers. This also means that the clearest possible and easily accessible empties storage on your part makes things much easier. Afterwards the collection takes place.

And now something new!

If you come to our office on Monday or Tuesday for billing, please do not bring any more cash! A lot has changed at the banks and we have big problems depositing the cash quantities at the bank. It costs, we are no longer allowed to come to the bank but they pick up the money in a safe place, we have to document everything possible in order not to get into the suspicion of money laundering. We would like to save ourselves the effort and trouble and we ask you to transfer the invoices we provide you to our account immediately after the festival.

Sorting /

Which boxes are allowed together on a pallet? For return, all boxes of the variety must be sorted accordingly. Beer and shandy can go together on a pallet if necessary. Mate boxes (20x0,5) please on separate pallets. Lemonade bottles (24x0,33) also please on separate pallets. For the final pick-up, we will be happy to discuss the possible constellations and exceptions with you on site. WHAT is NEW is that this time we take back all mate bottles (i.e. all white 0.5 l bottles) and all white 0.33 l lemonade bottles (including Bionade etc., but without further embossing such as "Becks or similar/no screw caps).

For the further handling of the deposit, the KuKo will certainly inform again separately.

The cups must be washed off and dried. Wet cups mold in the long run.

Unsorted boxes and unwashed (or wet cups) will not be charged upon return!

Afterwards you will coordinate an appointment with our office when you come by to pay. (Monday 4.7. and Tuesday 5.7.)

Change:

You should send your change requests until 10.06. at Line via mail line@kulturkosmos.de announce. This year, for the first time, the provision fee for the change will be paid to you can be passed on.

As a reminder, our questions:

Name/mobile phone number during assembly and dismantling:

From what date since you set up on the pitch?:

On what day and at what time do you open the bar?:

On what day and at what time do you close the bar?:

How many 0.2 deposit cups do you need as initial equipment?:

How many 0.3 deposit cups do you need as initial equipment?:

For bars without refrigerated containers: How many refrigerators do you need?:

Please send your answers to recolte@nadir.org

see you soon!

The hpttrsn crew
